

# Colocation

## ✓ Compliance

Stop worrying about compliance and audits. Let the compliance experts at Lifeline Data Centers help you solve your SSAE 16, TIA-942, NFPA, HIPAA, FIMSA, FDA, PCI/DSS and Sarbanes Oxley audit problems. Lifeline focuses on compliance with audit-ready data centers and in-house expertise so you can focus on your data center strategy.

## ✓ Experience

Since 2001, Lifeline Data Centers has provided high-uptime, affordable colocation facilities. Our experienced in-house compliance, security, power, and HVAC experts focus on one thing: the relentless pursuit of higher uptime at lower costs.

## ✓ Innovation

The relentless pursuit of higher uptime and lower costs requires innovation. Lifeline's innovations include customized power generation and delivery, low power cooling systems, solar powered data centers, risk/compliance software systems, and more to come!

### Power

- ▶ Dual utility feeds from two separate substations
- ▶ Hardened generator buildings
- ▶ Multiple redundant 500 kW diesel generators with 60 hours of fuel reserves
- ▶ Multiple redundant UPS with battery backup
- ▶ Automatic Transfer Switches for sensing utility feed failure and switching to generator
- ▶ Each customer gets power (N+N) from redundant utility feeds, generator feeds and UPS

### Cooling

- ▶ Multiple redundant 100 ton chilled water plants
- ▶ Redundant chiller loops
- ▶ Fully redundant, concurrently maintainable air conditioning
- ▶ Hot aisle, cold aisle data center layout
- ▶ Unlimited expandability, 10 tons at a time

### Telecommunications

- ▶ Dual telecom entrances
- ▶ Multiple carriers for client choice
- ▶ No monthly cross connect fees

### Sturdy Building

- ▶ Hardened data centers - reinforced concrete, F5 tornado resistant
- ▶ Separate hardened generator buildings

### Security

- ▶ Personnel and client background checks
- ▶ Three factor authentication (access card, PIN, combination on cage)
- ▶ Video surveillance and recording
- ▶ Anti-tailgate/anti-passback technology (two people can't come in on one card)
- ▶ 24/7 Network Operations Center (NOC)
- ▶ Private and secure client cages

### Private Cages

- ▶ Flexibility of branch office or growth
- ▶ Room to stage and add cabinets
- ▶ Circuit panels within cage where requested

### Managed Services

- ▶ Remote hands
- ▶ Tape handling, power on/off
- ▶ Server maintenance

### Office Space

- ▶ Secure office space with personnel and client background checks
- ▶ Permanent business continuity/disaster recovery office space
- ▶ No oversubscription - space is yours if you need it, no chance of sharing
- ▶ IT outpost office space
- ▶ Primary office space

### Fire Suppression

- ▶ Zoned system
- ▶ Fully automated double interlocking dry pipe

### Simple Pricing Model

- ▶ Floor space
- ▶ Rack count
- ▶ Utilization-based power billing
